RE: Operational Plan for SWMU 15, Naval Station Mayport; Bechtel Environmental, Inc.

Dear David:

I have reviewed the above document dated September 15, 1997 (received September 17, 1997). Please note that this document replaced a similar document entitled "Draft Operational Plan for SWMU 15 NS Mayport, Florida" dated August 12, 1997 (received August 14, 1997) which was not reviewed. Additionally, I am in receipt of the Certification page for the former, which I will affix to the document.

I have discussed this project with Mr. Greg Brown and the proposed four inches of gravel over a geotextile cover is consistent with our discussions and the intent of the Corrective Measures Study for the Group II SWMUs; therefore, this document is adequate for its intent. Please note that implementation of the actions described in this Plan requires that appropriate land use restrictions be applied to this site in the future, as described in the Corrective Measures Study for the Group II SWMUs.

Thank you for the opportunity to review this document. If you need further clarification or any additional information, please feel free to contact me at 850-921-4230.

Sincerely,

James H. Cason, P.G.  
Remedial Project Manager
